

Peer-Reviewed Domestic Journals

1. **American Journal of Public Health:** comprehensive coverage on the impact of public health policies within the US.
2. **Health Policy Journal:** known for its rigorous analysis of health policy issues -> *often utilized by many institutions and policymakers.*
3. **Journal of Policy Analysis & Management:** a peer-reviewed academic journal focusing on *scholarly research in public management and policy development.*
4. **Administration & Society:** peer-reviewed journal focused on examining the performance of public service organizations, specific administrative processes, and their impact on society. (*through empirically-examined research models and theoretical articles*)
5. **Milbank Quarterly:** a multidisciplinary journal specifically known for its contributions to *health policy analysis and reforming related initiatives.*
6. **Journal of Public Administration & Theory:** a quarterly peer-reviewed journal that covers **public administration/policy issues.**
7. **Journal of Public Health & Policy:** This journal covers the intersection of **public health, policy development, and law.** It focuses on how evidence shapes how *public policy is carried out and enacted within large populations. (how that affects health outcomes as well)*
 - a. ****This one could be increasingly relevant here, as it contains papers examining the success/failure of health intervention programs and a comprehensive database.**

International Journals

8. **Governance:** public policy journal that focuses on administrative processes within the government and how they are carried out.
9. **International Journal of Public Administration:** publishes research on the latest developments in policy/public administration within both emerging & transitional regions.
10. **International Journal for Equity In Health:** public health journal that reports on health inequities in underdeveloped areas.
11. **Health Policy Planning:** publishes research on health-policy processes within low-income countries.

School-Run Journals

12. **Harvard Public Health Review**
13. **UC Berkeley Journal of Health Policy & Management**
14. **Columbia University Journal Of Global Health**
15. **Princeton Journal of Public & International Affairs**
16. **Cambridge University Journal of Public Policy**

- a. ****Though Cambridge is outside of the US, the journal itself has *many articles that focus on the performance of the healthcare system within North America, as well as research on potential improvements.***
